

COMPANY PROFILE

We are ZEYCO, a Mexican group of companies dedicated to the manufacture and marketing of medicines, medical devices and dermocosmetic.

More than 40 years being a reference in the national and international market

Business Lines

Zeyco is composed by two large companies:

Zeyco Laboratories

Pharmaceutical manufacturer that develops and manufactures medicines, medical devices and dermocosmetics.

Business name: Laboratorios Zeyco S.A. de C.V.

Business line: Manufacture

Foundation year: 1984

Aleaciones Dentales Zeyco

Mexico and Latin America distributor of health supplies.

Business name: Aleaciones Dentales Zeyco S.A. de C.V.

Business line: Marketing

Foundation year: 1980

Organizational Purpose

Since our foundation we have been an organization concerned with maintaining a balance between the needs of the parties involved in the business: customers, employees, shareholders, suppliers and the society. This balance has emerged and has been strengthened by our purpose.

“We are convinced that better people make better companies and a better company, through its people, makes a better society”.

Our main objective goes beyond profit, we believe that our best strategy is the one that encourages in our people the passion to contribute with a better environment, a better society and a better Mexico.

Our purpose includes key factors for our success.

These aspects are part of **our DNA**

Manufacture

Our infrastructure has state-of-the-art and qualified technology, including systems capable of generating the regulatory and operational conditions necessary for the manufacture of our products.

Our manufacturing processes comply with the normative requirements, being effective and efficient from the control of the inputs we buy, to the release and delivery of our products.

Products we manufacture:

PRODUCT LINE	DESCRIPTION
Injectable Anesthetics	Local anesthetics in glass and polypropylene cartridges. Five different formulations for dental and medical treatments.
Topical Anesthetics	Two formulations, one based on lidocaine and the other with benzocaine for topical use in dental and medical treatments.
Prophylaxis pastes	Free of fluoride and with xylitol.
Antiseptic Hand Sanitizer Gel	70% alcohol for hand disinfection.
Surface disinfectant	Ready-to-use surface disinfectant, its formula contains 70% alcohol.
X-ray developer and fixer liquids	To be used in the dental office in manual X-ray development procedures.
Cement remover	Dental temporary cement remover.
Dermocosmetics Black Mandala	It's an Zeyco's entrepreneurship project. Developing its own line of products for tattooed skin care, formulated with natural origin extracts and animal cruelty free. Our goal is to provide to tattooed people and tattoo artists quality products that help them capture and preserve for longer time how ink looks in the skin.
Insect repellent	Made from essential oils of lemongrass, lavender and clove as well as antiseptic and sanitizing agents.
Tridistilled water	Tridistilled water for autoclaves, free of contaminants that cause scale, incrustations, corrosion and clogging.
Antiseptic and irrigant solution	2 % Chlorhexidine gluconate wich provides greater resistance in adhesion processes, also helps reduce postoperative sensitivity.
Ethylenediaminetetraacetic acid	Solution used as a chelating agent in endodontic processes, auxiliary in the biomechanical preparation of the root canal for a better adhesion of the obturating material.

Contract Manufacturing

Grupo Zeyco has world-class facilities and equipment, trained personnel and Quality Management System based on Good Manufacturing Practices (GMP) and Laboratory (LPG) by COFEPRIS and other international health authorities.

Zeyco products are produced on these facilities and at the same time contract manufacturing services are offered for the following product lines.

- Sterile solutions for injection in cartridge
- Gels
- Liquids
- Pastes
- Surface disinfectants
- Personal care products and cosmetics

R&D Research and Development

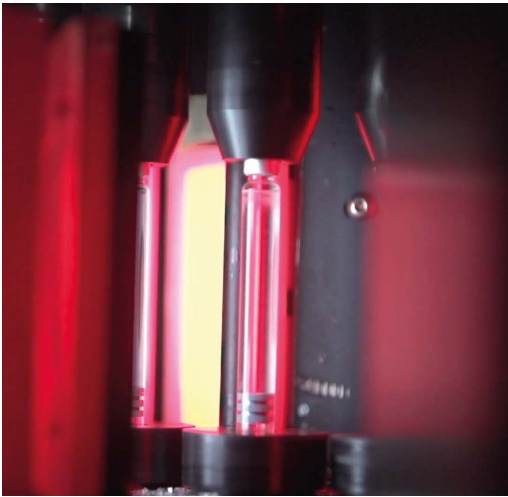

There is also a research and development area of medical devices, different pharmaceutical and cosmetic forms, as well as a Department of Regulatory and Legal Counseling, capable of accompanying the product life cycle, from development to healthcare registration.

Achievements

Over time we've evolved and we're proud of the successes achieved and the company that we're today. Described and characterized, mainly by:

- Being the most important dental anesthetic manufacturing company in Mexico, with a market share of **80%**.
- Being one of the most representative companies in the dental industry in Mexico.
- Our production teams are one of the most prestigious brands in the industry and integrate the latest technology.
- Our facilities have **+ 8,000 m²**, of which **+ 5,000 m²** are storage.
- More than **40** years of experience in the industry.
- **+ 65** countries around the world and we are in the process of registration in more than **20**, which will allow us to continue to contribute positively to our country's trade balance.
- Our work team has **+ 400** employees.
- More than **100,000** followers on our social networks.

8 out of 10 dentist in Mexico use our anesthetics

We are confident that our capacity and reach as an organization will keep us at the forefront and consistent with our business vision:

“To be recognized as a great place to work, as a company that contributes to the development of its environment and as a reference in the field”.

Marketing

At ZEYCO we work to ensure the availability of quality products in the market, so we have strict logistics and distribution processes that have allowed us to remain in force in the national and international market.

Over time, we have been known to distribute products that are complementary to those we manufacture. Such distribution is focused on bringing the market first class solutions and references in other parts of the world, which is why our product portfolio includes the following brands, product lines of which we are, mostly, exclusive distributors for Mexico (also Central America and the Caribbean in some cases):

	LINE DESCRIPTION	ORIGIN	DISTRIBUTORS SINCE
	Product line for the tattoo professionals and for tattooed skin care.	Mexico	2019
